Experience

Google — YouTube *Bangalore, India*
Software Engineer Intern *July 2025 — September 2025*
Skills: Python, Gemini V3, YOLO, Computer Vision, ML Evaluation Pipelines

- Engineered an **AI-driven sticker auto-placement system** for YouTube Shorts by integrating Gemini V3 outputs with YOLO-based spatial detection, reducing manual creator editing effort and improving consistency across high-volume content.
- Designed and implemented an **end-to-end CV evaluation pipeline** benchmarking IoU accuracy, latency, and failure modes against creator prompts—enabling reliable model quality gating prior to deployment.
- Automated ML validation workflows using **Python**, optimizing preprocessing, annotation verification, and batch evaluation—cutting manual review overhead by **60%**.

Amazon — CReturns *Hyderabad, India*
Software Developer Intern *June 2024 — August 2024*
Skills: Java, Spring Boot, React, Mockito, Typescript, Jest, Angular, React, Redux

- Architected and deployed a **high-throughput decant workflow pipeline**, reducing operational task time by **25 minutes** per associate and increasing parallel processing efficiency.
- Engineered **React-based classification filters** with optimized state management, accelerating engineering triage workflows by **20%**.
- Enhanced backend microservices in **Java + Spring Boot**, introducing **Mockito-backed integration tests** that reduced regressions and improved system reliability under peak traffic.

Technical Subhead *Ajmer, Rajasthan*
Women's Engineering College Ajmer *June 2024 — August 2024*
Skills: Communication, Leadership, Teamwork, Time Management

- Elected as **Technical Subhead** for the academic year 2024–25, leading end-to-end planning and execution of high-visibility college events including **Farewell, Epistemico, and Independence Day** in collaboration with cross-functional student teams.
- Owned the **technical strategy and on-ground execution** for large-scale events, ensuring seamless delivery through proactive planning, real-time issue resolution, and coordination with faculty and organizers.
- Led and executed **standalone technical events**, driving strong participation from students across multiple colleges and increasing overall engagement.

Education

Govt. Women's Engineering College, Ajmer *Ajmer, Rajasthan*
B.Tech in Computer Science CGPA: 8.83 SGPA: 9.36 *2022 — 2026*

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, OOPS, Machine Learning, Communications.

Kendriya Vidyalaya (CBSE), Nasirabad *Nasirabad, Rajasthan*
Higher Secondary Examination 92% *2022*

Technical & Product Skills

- **Languages:** Java, Python, JavaScript, TypeScript, SQL
- **Product Skills:** Product Requirement Definition (PRDs), User Stories, Metrics & KPIs, Experiment Design, Feature Prioritization
- **Backend & APIs:** Spring Boot, RESTful APIs, System Design (Foundational)
- **Frontend & UX:** React, Basic UI/UX Principles, Figma (Wireframing)
- **ML/AI Products:** Computer Vision Evaluation, YOLO, Prompt Engineering, Model Quality & Latency Analysis
- **Tools & Platforms:** Git, GitHub, Jira, Postman, Google Sheets / Excel

Achievements

- Awarded **Amazon future engineer scholarship,** one among **500 students** selected annually across India, cleared the communication round.
- 500+ questions DSA questions solved on different platforms - **codolio**
- Elected as **Technical Subhead** in my college - conducted hackathons, coding challenges, fun games.
